

EDITO

The PMG Steel Industries group wishes you all the best for this New Year and thanks you for the trust you have placed in us. 2020 will be marked by new investments.

We will increase our grinding capacities by adding a new machine and modernizing our current park, we will double our surface treatment capacities in our Chinese factory, in order to meet the strong demand of the local market.

The group's research and development policy has enabled us to be selected for an ambitious European study project.
