PMG SI (Polimiroir Group - Steel Innovation) letter of information - July 2015

Edito

Despite depressed economic conditions and uncertain international situation, our group PMG SI continues and even accelerates its investments.

The year 2014 had already been full of achievements, with the doubling of our factory PMG Wujiang in China of 4000 m², the realization of a new warehouse span of 1,300 m² at PMG Polimiroir increasing the works surface area of 25%, the modernization of PMG RCD workshops, the installation of a new Plasma spray coating unit in PMG Ouest Coating.

The year 2015 will see even more projects, with the construction of two new buildings in PMG Ouest Coating increasing by 50% the area of our factory, the installation of 2 new Plasma and HVOF spray coating units, and the integration of a new business with the acquisition of our first shot peening unit.

PMG RCD doubled the size of its offices and achieves a control room for large parts. PMG Wujiang, after its successful introduction into local markets of plastic and steel industries, invests in all robotic HVOF and Plasma spraying units.

These investments are accompanied by the recruitment and training of operators, quality controllers, but also sales staff.

Olivier PEIFFER
President and Chief Executive Officer

An investment plan of 4 million €

The PMG SI group launched **an ambitious investment program** for the construction of new buildings and a large increase in its production capacity for the sectors of aeronautics and energy.

PMG Ouest Coating - 2 new buildings and a new plasma spraying unit

PMG RCD - New building

PMG Polimiroir - New warehouse span

PMG Polimiroir Wujiang - Expansion of the factory

5 international exhibitions since the beginning of the year

Our sales teams have already attended five major exhibitions this year: CHINAPLAS Guangzhou, JEC Paris, ICE Munich, POWER GEN Amsterdam, Paris Air Show Le Bourget.

CHINAPLAS (Guangzhou)

JEC (Paris)

ICE (Munich)

POWER GEN (Amsterdam)

SIAE (Paris - Le Bourget)

SIANE in Toulouse
from
20 to 22 October 2015

MIDEST in Villepinte
from
17 to 20 November 2015

Closure of factories during the summer for maintenance operations

Polimiroir, RCD and Ouest Coating plants will be closed from 8 to 23 August 2015.
