

EDITO

Good morning all,
This beginning of the year has reserved many surprises for us.
The new restrictions due to the evolution of COVID epidemic in Europe, the outbreak of war in Ukraine with the implementation of economic sanctions, the resumption of the pandemic in China, have greatly complicated this first quarter and make it impossible a vision of the situation for 2022.

PMG CENTRAL EUROPE Creation of a subsidiary in Poland

Creation of our subsidiary in Poland PMG Central Europe

The Central European market is very promising and many customers of the PMG Group have already settled in these countries, the investments for the realization of the ecological transition, the passage of cars from thermal to electrical, require very significant investments, our Asian customers are investing heavily in Poland and Hungary. We have decided to be at their side by opening our offices in the south of Poland.

POLIMIROIR WUJIANG TRADING Creation of a subsidiary in China

Our factory in Wujiang, which has just celebrated its 10th anniversary, is exporting more and more to Asia. In order to facilitate this growth, this new company will support our current structure in this evolution.

POLIMIROIR : New services

New services are offered by Polimiroir : Expert Visit for steel production lines of tinned sheet.

In order to support our customers, we have been offering them business expertise for many years.

Polimiroir performs controls by thermal cameras for plastic film production lines. Ouest Coating offers coating controls for steel production lines, continuous galvanizing and continuous annealing.

A new service, called «**Expert visit**» offered by Polimiroir teams, allows us to provide our expertise around the use of our patented product, the current conductor roll.

These rolls, sold all over the world, are used to make continuous deposit of tinplate. This process is widely used for making cans and tins.

PMG POLIMIROIR WUJIANG Celebrated its 10th anniversary

The ceremony of our company in China.

Our company Wujiang Polimiroir Industrial rolls has 10 years of existence.

Unfortunately health restrictions are still relevant in China and even reinforced recently in Shanghai, but that did not prevent us from celebrating this event, with all our local teams and the presence on video of the french team.

PAST EXHIBITIONS

ICE EUROPE Fair (March 2022) Munich

We presented our Rollers activity for the plastic industries at this show.
