

EDITO

Hello,
I send you again my best wishes for this New Year 2023.
We bet on the future at the beginning of 2022 and we have been reassured by the success of our initiatives, despite the events that disrupted and destabilized our economy, and affected all sectors of activity...

POLIMIROIR

New grinding machine

We received a new grinding machine at our POLIMIROIR plant.

The installation was completed by our supplier in December 2022.

This machine will allow us to increase our production capacity to better serve our customers.

OUEST COATING

New Hard Coat process

“Hard Coat” surface coating on a Chill roll Ø2200 for Polimiroir

The companies of PMG Steel Industries group, well known for their skills in rollers manufacturing and surface coatings, have pooled their expertise to develop this new technology.

RCD

Green Chrome, a new process

Research, tests and achievements on Green Chrome continue.

We carried out with this technology, chrome plating on parts made of different materials : on low and high alloy steels, on pure iron, on inconel and on copper alloys. The characterization of the deposits is in progress to meet the specifications of aeronautical contractors such as Dassault Aviation, Safran Helicopter Engines, Safran Aircraft Engines, Ratier Figeac et Goodrich. The first « flight » parts have been chrome plated and are being tested by Dassault Aviation et Equipements.

WUJIANG POLIMIROIR

Our team (37 people)

Despite the complicated sanitary conditions in China, our factory continues to work and produce.

PMG POLIMIROIR SUZHOU

Signing of contracts

We have signed the contracts for the new entity in China. The structure is set up.

PMG CENTRAL EUROPE

Visit of Mr Piotr WAWRZAK

We received Mr. WAWRZAK in our factories in October and December 2022.

Visits to OUEST COATING, POLIMIROIR, PMG MAINTENANCE and RCD.

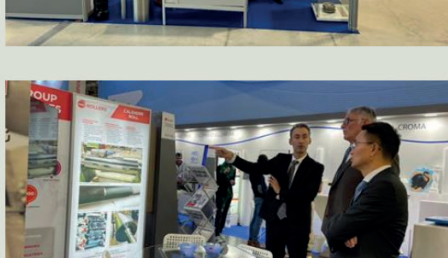

TRADE FAIRS

2 exhibitions marked the year 2022

SIANE fair in Toulouse

Ouest Coating and RCD presented their activities at this exhibition, particularly the new Green Chrome process.

K'2022 fair in Düsseldorf

Polimiroir and Ouest Coating presented the new Hard Coat process during this show.
